The deceased has been an honor-
ed citizen of this county for 25
years, and has served the people
as justice of the peace and mayor
of our city. He was buried Mon-
day evening at 4 o'clock by the
Masonic fraternity of which he

mers, who is in every respect a

school open with a full attend-
ance.

Teachers' Institutes.

There is no one thing that is so
full of improvement, help and en-
couragement to the school teach-
er as a well conducted Institute.
We learn by comparing our ideas
and experiences with those of
others, and it is impossible for a
number of teachers to meet to-
gether without mutual aid. To
lead the young mind up to virtue
and worth is one of the weightiest
responsibilities that a person can
have upon him, and how to ac-
complish this result is one of the
greatest questions in human econ-
omy. It is with the teacher to
form the basis of the character of
the child to a great degree—he
can teach him self-dependence in
a hundred ways; he can cultivate
in him those powers of close judg-
ment and calculation that will be
of so much value to that pupil in
after years, both morally and
financially; he can teach that
child the duty of self-control, and
many are the times in the school
yard that the teacher by just a
word, or some little act, can
convey lessons that reach down
all through the years of our three
score and ten. Then viewing the
great work dependent on the
teachers of our country, and know-
ing that if we do not do this work
it will never be done in ninety-
nine cases out of a hundred,
should we not take hold of all
means of improvement that we
can possibly reach. It will take
effort to revive our Institute in
Bradley Co., but we can do it if
the teachers and friends of edu-
cation in general, will help. No
one will gainsay that the Insti-
tutes held heretofore have result-
ed in great good, and if they
could be revived and kept in mo-
tion it would be a continual re-
newal to the educational interests
of the community. We solicit
the opinions of all on this ques-
tion. Autumn with its cool days
and dry roads is just at hand, and
we think there would be no
trouble in beginning the good work
soon.

Cleveland's Centennial Excursions.

Monkeys.—A Letter from
one of them.

NEW YORK CITY, Aug. 18th.

EDITORS OF WEEKLY HERALD:

Since writing you our last letter,
and before we left Washington,
we met our friend E. R. Hayes,
who took great pains in "showing"
us Washington. On the morning
of Aug. 12th we left Washington
on the lightning express and went to
Philadelphia at the rate of fifty
miles per hour; arriving there at
1:20 p. m. Our train was ferried
over Chesapeake Bay at Baltimore.
By the time the party arrived at
Philadelphia they were all well
worn out; however, the writer,
and Perry Gant, and Jack Crow,
managed to get out to Fairmount
Park and take a glance at the
wonderful Centennial. The first
thing the visitors should do is to
buy a "Centennial walking-cane"
for a quarter of a dollar, and enter
the grounds and take the narrow
gauge railroad which carries him
around the grounds for five cents.
This enables one to get the situa-
tion of all the buildings in his
mind, so there will be no getting
lost thereafter. On Saturday (the
19th) we took a view of the city,
visiting old Independence Hall,
where Thomas Jefferson and oth-
ers declared that "These colonies
are of right and ought to be Free
and Independent States." We
then visited the Masonic Temple
—which by the way is one of the
grandest pieces of architecture in
the United States; it covers one
whole square. We then took a
look at the city court house,
which, when finished, will be one
of the grandest buildings in the
Union. We then visited the Arch
Street M. E. Church which is also
a grand structure. After getting
tired of "seeing sights" we went
aboard the "Tom Smith" which
took us across the Delaware river
to Smith's Island, where the party
enjoyed themselves for several
hours. Just across the Delaware
from Philadelphia is Camden, N. J.,
which is a city of revolution-
ary fame, of several thousand in-
habitants.

On Monday we visited the Cen-
tennial again—going through the
Main Building, Machinery Hall,
Art Gallery, and Agricultural
Hall. Germany is well repre-
sented; next is Austria and Hun-
gary. Great Britain and Ireland
come to the front. Russia, Spain,
Portugal, Japan, China, Republic
of Chili, Turkey and Arabia are
all heavily represented. Italy
has the most finery of any nation
represented. Nearly all the States
in the Union are represented. It
makes a Tennesseean hang his
head with shame when he walks
up to a little "dog tent" and sees
Tennessee with a few small
pieces of ore, while all the other
States have nice houses, and rep-
resent everything that is grown
on their soil. As we were walk-
ing out of the little dog tent,
some long-nose fellow remarked
that "that was well enough for a
Democratic State." Altogether
the display is a grand success. If
you hear any person who has
seen the Centennial say it is a
failure, you may set him down as
no authority. It would take every
column in the Herald for fifty is-
sues to give anything like a de-
scription.

THE PEOPLE THROUGH THE NORTH
are much more accommodating
than our Southern people. If a
stranger asks for information in a
Southern city he often gets no an-
swer, but here in Pennsylvania
no difference to whom you apply
—rich or poor—they treat you
in a way that will make you re-
member it. Our party stopped at
No. 1901 Turner street, with Mr.
Alderfer, with whom we would
advise all Tennesseans to stop
when they visit the Centennial.
Leaving Philadelphia at 9 o'clock
a. m. on the 16, we arrived at
New York City at 11:30 same
days. We proceeded up Broadway
to the Tremont House where we
took rooms. On Broadway we
met again our East Tennessee
friends Jim Boyd, Henry Brad-
ford and King Benson, who took
the trouble to show us Madison,
Union and Washington Squares
and Central Park. After return-
ing from the Park we took supper
at a restaurant, where we had the
"pleasure" of eating a piece of
of the same old "rooster" that be-
longed to George Washington,
and was owned by him during the
Revolution. After supper we
visited the Olympic Theatre, and
heard the famous Miss Lena Riv-
ers sing.

lyn and saw Plymouth Church,

and also Greenwood Cemetery
where lies one hundred and sev-
enty-five thousand of the dead.
Among the most noticeable monu-
ment is that of James Gordon
Bennett, founder of the Herald,
and Horace Greeley, founder of
the Tribune. Greenwood is truly
a "city of the dead." At night
our party visited Wallack's the-
atre and saw the "Mighty Dollar"
played.

On this (Friday) we visited the
famous Coney Island, and took a
view of the Atlantic ocean. Our
party, except Cooper, Hardwick
and Lowery, have concluded to
see the East before they return.
Yours, &c., W. S. T.

That Mineral Map.

We took a pretty careful look
at a photolithographic copy of
the great Centennial map at the
office of S. B. Lowe yesterday. It
is decidedly the finest piece of
map work we ever saw by that
process. And being an exact
copy on a reduced scale of the
great map, it is the most correct
map or convenient size of the
Southern mineral region ever
drawn or printed.

The ridiculous low price of 25
cents each for these maps about
three by four feet, ought to in-
sure the sale of at least ten
thousand of them in the District.
The commission who constructed
the big map and got up the min-
eral specimens from this District
are selling these maps to enable
them to pay a balance due on
that enterprise. The map is worth
a dollar to any man who wants to
travel over the District or any
part of it, and much more to one
who wants to invest in lands for
any purpose.—Times.

tennial Commission of Chattanooga

Our readers will thank us for
the following sure preventive
against hydrophobia in dogs:
"Boil three table-spoonfuls of salt
and an ounce of carbolic powder
in a pint of water, squeeze in a
lemon, and then let a piece of
meat immerse in the mixture to
get an attractive taste. Take out the
meat, and put the liquor in a cool
place. Then while the remedy is
cooling lead the dog out behind
the barn and shoot him between
the eyes with a Remington rifle.
One pint of the liquor will be
found enough for 100 dogs.
